REYNEKE COMMODITIES

African resources. Global opportunity.

An independent offtake brokerage in Cape Town, connecting African chrome, manganese, copper and lithium producers with the traders, smelters and converters who need their material.

WHO WE ARE

Reyneke Commodities (Pty) Ltd is a South African offtake brokerage. We focus on junior, restart and developing producers whose tonnage is not yet committed, and on buyers looking for new supply beyond their usual networks.

We act as broker only: we never buy, sell or take title to material, and the sale contract is signed directly between buyer and seller. Every enquiry is handled by the founder and sole director, Jared Reyneke.

WHAT WE DO

- **For producers:** we take your tonnage, grade and logistics to several buyers rather than one, and set the offers side by side.
- **For buyers:** we look for producers that fit your specification and review their documents before any introduction.
- **Funding:** where a producer needs it, we ask buyers about prepayment or offtake-linked funding. The terms rest with the buyer.

COMMODITIES

	COMMODITY	TYPICAL PRODUCT	TYPICAL GRADE	MAIN BUYERS	KEY ORIGINS
Cr	Chrome	Metallurgical concentrate, lumpy ore	**40–46% Cr_2O_3**	Ferrochrome smelters, traders	Bushveld (South Africa), Great Dyke (Zimbabwe)
Mn	Manganese	Medium and high-grade ore, sinter	**36–48% Mn**	Alloy smelters, metal and sulphate producers	Kalahari Field (South Africa), Ghana, Gabon
Cu	Copper	Concentrate, direct-shipping ore, cathode	**20–30% Cu**	Traders, custom smelters	Copperbelt (Zambia, DRC), South Africa
Li	Lithium	Spodumene concentrate, direct-shipping ore	**5.5–6% Li_2O**	Converters, battery-chain traders	Zimbabwe, Namibia, Mali and Nigeria

Grades are typical industry ranges for orientation, not offers. Every parcel is priced on its own assay. Other minerals on request.

HOW A DEAL RUNS

01
First contact
Grade, volume, delivery basis, price and payment terms.

02
NCNDA
Signed with each party separately, with a separate fee agreement (IMFPA), before any introduction.

03
Buyer LOI
The buyer issues a letter of intent to the producer, through us.

04
Inspection and COA
Independent inspection, appointed and paid for by the buyer. The COA shows the current grade. Final price is settled on the independent assay at loading.

05
SPA
Signed directly between buyer and seller. We are not a party to it.

OUR COMMITMENTS

- No names or documents before a signed NCNDA.
- Broker only: never the buyer or the seller, and not a party to the sale contract.
- Fee agreed per tonne in a separate fee agreement before any introduction.
- No funds handled: payment for cargo flows directly between buyer and seller.
- Personal information handled under South Africa's POPI Act.
